OUR REF.: .....

## **GEMINI ENGINEERING SAFETY POLICY**

Gemini's safety policy is to strictly comply with all laws which are applicable to our activities, whether working in the workshop or the work field.

Our daily aim with regards to safety is to enforce daily activities which train and educate our employees of safety awareness not only at their work place but also during after hour activities.

Under no circumstances do we allow any kind of activity that may be harmful to employees or members of the public. ..

Our safety policy is adhered to by training our employees according to procedures that comply with all laws & regulations of the Minerals Act.
